Note: The first column of figures under each journal title provides the original Russian reference; the second column cites the location of the article in NEUROSCIENCE TRANSLATIONS 1967-68.

NEUROSCIENCE TRANSLATIONS

December 1967 Number 1

CONTENTS

Editorial note i
Other translated material relevant to neuroscience 39, 65, 80, 118

Classification of single unit responses in the auditory cortex of cats. VARDAPETYAN, G.A. 1

Conditioned reflexes in planarians and regeneration experiments. CHERKASHIN, A.N., I.M. SHEIMAN and G.I. BOGOROVSKAYA 12

Reaction time as a function of duration and intensity of acoustic stimuli. AVAKYAN, R.V., G.A. VARDAPETYAN and G.V. GERSHUNI 15

Neuronal types and interneuronal connections of the inferior colliculus of the bat. SUKHOVSKAYA, L.I. 23

Bilateral representation of the vagus nerve at the level of the medulla. GONCHAROVA, L.S. and B.D. STEFANTSOV 28

Mechanisms controlling the oculomotor apparatus of the rabbit. SHAKHNOVICH, A.R. and R.B. NEBIERIDZE 33

Origin of the after-depression of the sympathetic ganglion. SKOK, V.I. 40

Role of inferior colliculus in analysis of auditory stimuli. GOREVA, O.A. and T.E. KALININA 47

Changes in excitability of motor cortex during formation of conditioned food reflex in response to its stimulation. DAVYDOVA, E.K. 53

Microelectrode investigation of motor cortex in unanesthetized rabbits. SOKOLOVA, A.A. and T.D. LIPENETSKAYA 57

Functional properties of interneurons activated monosynaptically by the pyramidal tract. VASILENKO, D.A. and P.G. KOSTYUK 66

Functional changes in degenerating central synaptic endings. KOSTYUK, P.G. and L.A. SAVOS'KINA 73

Changes in electrical activity of the medulla during stimulation of receptors in urinary bladder. MERKULOVA, O.S. and T.V. POPOVA 81

Synaptic mechanisms of vestibulospinal influences on alpha-motoneurons. SHAPOVALOV, A.I., G.G. KURCHAVYI and M.P. STROGONOVA 91

Reproduction of rapid precision movements. ZALKIND, M.S. 101

Functional organization of exteroceptive projections in the forebrain of the turtle. MAZURSKAYA, P.Z., T.V. DAVYDOVA and G.D. SMIRNOV 109

NEUROSCIENCE TRANSLATIONS

February 1968 Number 2

CONTENTS

Other translated material relevant to neuroscience 220, 237, 238

Behavioral reactions to electrical stimulation of amygdala in cats. ALLIKMETS, L. KH. 119

Auditory suppression of the postsynaptic inhibition in photically evoked responses. SKREBITSKII, V.G. 128

Changes in electrical and conditioned-reflex activity after destruction of lateral hypothalamus in rabbits. KALYUZHNYI, L.V., L.I. NEKRASOVA and I.N. ZAKHAROVA 131

Electrical activity of the hippocampus during peripheral stimulation. UNGIADZE, A.A. 136

Morphophysiological correlates of evoked potentials in rabbit sensorimotor cortex during postnatal ontogenesis. ATA-MURADOVA, F. and I. CHERNYSHEVSKAYA.. 143

Effect of vestibular stimulation on neuronal activity in the visual cortex of the cat. GORGILADZE, G.I. and G.D. SMIRNOV 153

Mechanism of the influence of the reticular formation on cortical neurons. NARIKASHVILI, S.P., E.S. MONIAVA and V.S. ARUTYUNOV 160

Role of dorsal root depolarization in inhibition of monosynaptic flexor reflexes. SVERDLOV, YU. S. 169

Postsynaptic potentials in motor cortex of waking rabbit. VORONIN, L.L. 177

Extra- and intracellular responses in motor cortex of waking rabbits to acoustic and photic stimuli. VORONIN, L.L. and V.G. SKREBITSKII 185

Subcortico-cortical relationships in birds. BELEKHOVA, M.G. 195

Posttetanic potentiation and recruitment in cerebral cortex of the turtle. BELEKHOVA, M.G. 204

Role of mesencephalic reticular formation in organization of cortical neuronal activity during specific stimulation. VELYKA, R.R. 213

Effect of calcium and magnesium on dendritic potentials. ROITBAK, A.I. and T. N. ONIANI 221

Electrical activity of vascular smooth muscle under direct and reflex influences. FILISTOVICH, V.I. 229

NEUROSCIENCE TRANSLATIONS

April 1968 Number 3

CONTENTS

Response in units of inferior colliculus in cats to unilateral change of intensity of a binaural stimulus. AL'TMAN, YA. A. 239

Effect of unilateral lesions of auditory cortex on reaction time to auditory stimuli of varying duration. BLINKOV, S.M. and T.A. KARASEVA 248

Microelectrode investigation of extinction of neuronal responses in visual cortex of waking rabbits to acoustic stimulation. SKREBITSKII, V.G. and L.I.GAPICH... 251

Activity evoked in cortical neurons and primary cutaneous afferent fibers by vibratory stimulation. VASILEVSKII, N.N., Z.A. ALEKSANYAN and S.I. SOROKO.... 259

Horizontal cells of the retina as regulators of synaptic transmission. BYZOV, A.L. 268

Activity evoked in cortical association areas of cats. NARIKASHVILI, S.P., A.S. TIMCHENKO and N.A. KHADARTSEVA..... 277

Spontaneous spike potentials of single neurons in situ in ganglia of the leech. LEBEDEV, A.N. 285

Cortical projection of pulmonary receptors in the cat. KAZAKOV, V.N. 291

Role of hippocampus in formation and preservation of complex conditioned reflexes. SEMENOVA, T.P. 299

Influence of the hypothalamus on conditioned reflexes in the reptile, Varanus griseus. SOLLERTINSKAYA, T.N. 305

Mechanism of cortical rhythms. SUPIN, A.YA. 313

Local and propagating excitation in different parts of stretch receptor neurons in crustaceans. RUSINOV, V.S. and V.D. EZROKHI 320

Activity of neurons of the somatosensory cortex during local strychnine poisoning. STOROZHUK, V.M. and N.I. PERFIL'EVA 327

The hypothalamic mechanisms of fever. REPIN, I.S. and I.L. KRATSKIN..... 336

Functional discrimination between caudate nucleus and other forebrain structures in cats. CHERKES, V.A. and K.V. MIRONCHIK 341

Participation of fast and tonic oculomotor systems in stretch reflexes and labyrinthine reflexes of extraocular muscles. BAICHENKO, P.I., D.P. MATYUSHKIN and V.V. SUVOROV 350

NEUROSCIENCE TRANSLATIONS

June 1968 Number 4

CONTENTS

Other translated material relevant to neuroscience 477
Cumulative indexes and tables of contents 479

Hypothalamo-hypophysial regulation of the ovarian cycle. BARANOV, V.G., M.V. PROPP, O.N. SAVCHENKO and G.S. STEPANOV 359

Effect of hydrocortisone administration on catecholamine content in the brain of rats under stress. SHALYAPINA, V.G. 367

Role of auditory cortex in discrimination of acoustic stimuli. GERSHUNI, G.V., A.V. BARU and T.A. KARASEVA 370

Cycles of excitability in neurons of visual cortex in waking rabbits in response to double flashes. POLYANSKII, V.B. 383

Responses of neurons in somatosensory cortex to direct electrical stimulation. STOROZHUK, V.M. and T.B. GUROVA 390

Effect of somatosensory cortex on spontaneous activity in association cortex. NARIKASHVILI, S.P., V.S. ARUTYUNOV and E.S. MONIAVA 397

Influence of cervical sympathetic nerve and hypothalamus on direct cortical responses. BAKLAVADZHYAN, O.G., B.A. ARUTYUNYAN and A.G. DARBINYAN 403

Cortical and thalamic contributions to recovery cycle of evoked potentials in visual cortex. SUPIN, A.Ya. 411

Instinctive and conditioned reactions in cats after removal of amygdaloid nuclei. CHERKES, V.A. 418

Inhibition in glomeruli of the olfactory bulb. VORONKOV, G.S. and K.G. GUSEL'NIKOVA 425

Effect of polarization on dynamics of switching functional interconnections between brain structures. ALADZHALOVA, N.A. and O.I. KOEKINA 427

Response of auditory system of bats to ultrasonic stimuli. VASIL'EV, A.G. and D.P. MATYUSHKIN 435

Effect of stimulation of cardiac sympathetic nerves on vagus escape of the heart. UL'YANINSKII, L.S. 442

Elicitation of tongue movements by gustatory stimuli in animals. KOROVINA, M.V. 451

Inhibitory influence of neostriatum on conditioned-reflex activity in macaques. KURAEV, G.A. 458

Microelectrode investigations of conditioned reflexes to time. KOPYTOVA, F.V., and M.Ya. RABINOVICH 461

Possibility of ephaptic interaction of neurons through an electric field generated by them. RUSINOV, V.S. and V.L. EZROKHI 469
